**L**ink's Crossbow Training comes packed with Nintendo's Wii Zapper peripheral. Carrying on the tradition of solid Wii pack-ins started by *Wii Sports* and *Wii Play*, Link's Crossbow Training is a fun target-

shooting game with a good variety of different event types and a fair amount of replay value. The game revisits key locations from 2006's *The Legend of Zelda: Twilight Princess* as Link practices with his trusty crossbow by shooting at targets, defending against attacking enemies and charging into enemy territory on elimination and boss battle missions. Although the game feels like an on-rails shooter (with the exception of a handful of free-roaming areas), there are plenty of secrets, alternate routes and score-enhancing tricks to boost your score and bring home those elusive platinum medals. This guide will reveal everything you need to know to hit the high scores and become a master of Link's crossbow (and the Wii Zapper).

Strategy  
Guide  
by Pat  
Reynolds

## BASIC TIPS

### TO ZAP OR NOT TO ZAP

Although the Wii Zapper is a neat gadget and adds an extra layer of realism to this shooting game, you might find that you get better and more accurate results by simply using the Wii Remote and Nunchuk in the normal two-handed fashion. Basically, without the Zapper shell you can get better accuracy and move the crosshairs further with smaller movements of the remote, letting you quickly move from target to target. In a game where maximizing your score is the only goal, every possible advantage you can give yourself counts. Try playing both ways (with and without the Zapper) to determine which method works better for you.

### CALIBRATE YOUR ZAPPER

If you've decided to use the Zapper, the first thing you need to do upon starting up *Link's Crossbow Training* is to select "Adjust Alignment" from the main menu and make sure that both the onscreen aiming crosshair position and movement are comfortable for you. Positioning is easy—aim the Zapper at the middle of the screen and then make adjustments until the crosshair is where you think it should be. For the movement speed, test out a variety of settings until you find one that works best for you. Obviously, the faster the crosshair moves across the screen, the faster you can pop targets, but you don't want to sacrifice accuracy for speed, so find the balance between speed and precision.

### SCORE MULTIPLIER

Throughout this guide I'll be referring to the "score multiplier." Every stage has two kinds of targets—primary and secondary. For each primary target that you hit without firing a missed shot, you'll add x1 to the running score multiplier. So, for example, if you hit 10 primary targets without missing anything, your next primary target will be worth its base point value x10. Secondary targets include anything in the environments that award points, but do not increase your multiplier, nor is the multiplier applied to their point value. Items like vases, barrels, crates, skulls and various other objects act as secondary targets. While hitting secondary targets doesn't add to the score multiplier, it doesn't reset it either, so it's safe to shoot them between primary targets. Secondary targets often hide items like coins or fairies that award you with a nice amount of additional points.

### PENALTY TARGETS

Watch out for penalty targets. The most common type is a target with a blue "X" marked on it. Avoid shooting these, as they'll cost you some points...but more importantly, they reset your score multiplier. Other penalty targets include any kind of living creature not designated as an enemy target, such as the wildlife you'll occasionally find in the outdoor stages.

### COMPLETION BONUS

If you hit all (or most, in some stages) of the primary targets before the time limit expires, you'll earn a completion bonus of 500 points multiplied by the remaining amount of time left on the clock. This bonus can often be substantial, since finishing with just five seconds left nets you 2,500 points, 10 seconds gives you 5,000 points, and so on. On some stages like the Darknut battle, it's possible to finish with 50 seconds or more remaining for a huge bonus of 25,000 or more points!

## STAGE TIPS

### TARGET STAGES

The largest collection of stages in the game features a variety of targets, both stationary and moving, that must be shot quickly to progress to the next area. You can maximize your score in these stages in a few different ways. First, by quickly hitting targets in succession you'll earn score multipliers. Any missed shots will reset the multiplier. Second, special gold targets will appear that are worth more points than the standard red ones. Finally, clear out the targets as quickly as possible to earn a big score bonus for finishing the whole area before the timer runs out.

### DEFENSE STAGES

Link is stationary for these stages and must defend against waves of attacking enemies. In some defense stages you can rotate Link 360 degrees. In the edge of the screen to rotate Link and check your

radar often to see if there are incoming enemies in your blind spots.

### RANGER STAGES

These stages put Link into enemy-filled fortresses and castles and give you freedom of movement with the goal of eliminating all the bad guys before the timer runs out. The key to success in these stages is to stay on the move, always heading toward the next target. Quickly dispatch each enemy and then move on. Don't stop for anything—the primary goal of clearing out all of the enemies must come first. If there's time left on the clock, you can clean up any secondary targets like jars, crates and bones for extra points.

## SCARECROWS

The biggest secrets in the game come from the scarecrows scattered throughout certain levels. When you spot one, shoot its body eight times and then burst its inflated head with a final shot. Shooting a scarecrow this way is worth 1,036 points. In certain target practice stages, the scarecrows hide the way to a hidden alternate third area filled with more gold targets and high-scoring opportunities. To reveal these hidden areas, shoot the first scarecrow to appear in the stage. This will make a second scarecrow appear in the second area of the stage. Shoot it to alter your path into the bonus area. The walkthrough on the following pages gives details about which stages contain these hidden areas.

## WALKTHROUGH

In this section, I'll detail tips and strategies for every stage in the game. Want to post up the biggest possible scores? Check out the scoring tips to learn how to squeeze every last point out of each stage.

### LEVEL 1

#### STAGE 1-1: ORDON TARGET PRACTICE

If you hit the first scarecrow the proper way, you'll find a second one in the next area—on the hill to the right. Repeat the process (eight shots to the body and one to the head) and you'll be taken to a hidden third area of the stage that's filled with high-scoring targets.

As soon as the stage starts, zoom in and shoot the scarecrow sitting on the hill to the left. Hit it in the body at least eight times, then pop its inflated head.

**Scoring Tip:** Any time you're presented with a mix of targets that includes the normal red ones (30 points) and the rarer gold ones (150 points), always shoot the red targets first and the gold ones last. As long as you don't miss any, each red target increases your score multiplier, so you'll bag more points for each gold target this way.

**Scoring Tip:** Shoot the doors of the huts several times to release a flight of melon-shaped balloons. Each balloon is worth 100 points, and you can repeat this trick until you're forced to move on. Keep in mind that as secondary targets, shooting the balloons won't increase your score multiplier, so you'll need to keep hitting the primary targets as well.

#### STAGE 1-2: GERUDO STALFOS (DEFENDER)

There's not a lot of bonus scoring opportunity to be found in this desert area, but you can shoot the jars and other debris in the background (zoom in for better accuracy) to score some extra points.

**Scoring Tip:** The biggest score opportunity on this stage comes from the shield-wielding Stalfos. While it's possible to destroy them with a single charged shot, aiming for their shields and repeatedly shooting them will increase your score multiplier quickly and easily.

## STAGE 1-3: ARBITER'S GROUNDS (RANGER)

This is the first ranger stage—you'll have full control of Link's movements and must find and defeat all 25 of the Bulblins to score the bonus points for full completion. Use your zoom to quickly take out the archers on the towers. Don't stop moving—if you get hit, your score multiplier will be reset and you'll lose some points. Be sure to use the mini-map to locate hard-to-find Bulblins (some of them are sleeping in out-of-the-way corners).

**Scoring Tip:** If you clear out the enemies quickly enough, you'll still have a good amount of time left to go after the secondary targets, and there are plenty of them in the area. Shoot the jars, crates, piles of bones and roasting boars to rack up as many extra points as possible before the time limit expires.

## LEVEL 2

### STAGE 2-1: GORON TARGET PRACTICE

This target shooting stage is randomized each time you play it. Each Goron will spin and reveal either a red, gold or penalty (a blue "X") target. The first area has three Gorons, with five Gorons in the second and seven Gorons in the third and final section. The key to scoring well here is threefold.

First, you must be fast—take too much time to select and shoot your targets and you'll run out of time before you can finish and earn the bonus points. Second, don't shoot any penalty targets—they cost you points and reset your score multiplier. Finally, and most importantly, always hit the gold targets after all red ones have been cleared to maximize the points each of them is worth.

### STAGE 2-2: ZORA RIVER (DEFENDER)

The Toadpolis in this stage are immune to your shots while they're swimming underwater—wait for them to pop up before shooting. If you let them stick their heads out of the water for too long, they'll shoot at you, so be sure to shoot the projectiles before they hit you.

About halfway through the stage you'll find a section of river that's crawling with Tektites. Zoom in and shoot them all before your canoe gets close enough for them to attack. Defeating all of the Toadpolis and Tektites is the goal for earning the bonus points here, so that should be your primary focus. If you find yourself with any downtime during the ride downriver, use it to shoot secondary targets like the abundant hanging lanterns.

## STAGE 2-3: SKULL SHOOTING

This stage presents a new challenge—the target skulls are launched into the air and drop quickly toward the ground. So in addition to being moving targets, they're also timed targets, forcing you to aim accurately and shoot quickly to get all of the skulls launched in each valley.

**Scoring Tip:** The red skulls are worth 100 points (compared to the white skulls' 50-point value). To maximize your score, first shoot all of the white skulls in each valley to increase the score multiplier, saving the red skulls for last to boost up their point values.

## LEVEL 3

### STAGE 3-1: KAKARIKO TARGET PRACTICE

This is the second target practice stage to feature a hidden third area. Shoot the scarecrow in the first area, then the one in the second section (both are easily spotted) to unlock this hidden area. As before, you'll need to shoot the scarecrows eight times in the body and then once in the head.

Unlike the previous target shooting stages, this time around you'll be presented with one target at a time for most of the stage. Hitting each target makes the next one pop up, so speed is the key to getting through each section. As always, save the gold targets for last whenever possible to max out your score multiplier.

### STAGE 3-2: FRUIT BALLOONS

Shooting the balloons is pretty basic—the big watermelon balloons always split into three smaller melon balloons, one of which might split into four strawberry balloons. So each watermelon target has the chance to become a total of seven targets. They'll hang in the air for a good amount of time, so hitting them accurately isn't hard.

**Scoring Tip:** The big points on this stage come from the meteors that occasionally tear through the sky. They're fast, making them harder to hit than the balloons, but they're worth 300 points each. If you've built up the score multiplier, these meteors can easily be worth thousands of points, so they should become priority targets each time they appear.

## STAGE 3-3: THE GREAT BRIDGE (DEFENDER)

At the start of the stage before any enemies appear, shoot out the skulls on the bridge in front of Link, then zoom in and get the scarecrow on top of the tower in the distance. Hit each enemy as quickly as you can. Watch for the ones that fly straight across the screen in the background and be

sure to shoot them before they disappear.

## LEVEL 4

### STAGE 4-1: ZORA RIVER TARGET PRACTICE

Pop the scarecrows in the first and second areas to open the alternate third area. The waterfall acts as a shield against your shots during this stage—don't shoot at any targets that are behind the water or you'll miss and reset your multiplier.

In the alternate third area, use zoom the whole time. The targets are far away and staying zoomed in will give you much improved accuracy. This stage is your ticket to a platinum score; if your accuracy is good, you can easily earn the 80,000 points

needed, which is helpful because Stage 4-2 is typically low-scoring.

### STAGE 4-2: HYRULE CASTLE (DEFENDER)

The swarms of Keese in this stage are your primary targets. Because they move fast and erratically, accuracy is very difficult. The best strategy for this stage is to grab the rapid-fire power-ups from the Fairies in the area and eliminate the Keese as quickly as possible to snag the bonus points for completion.

### STAGE 4-3: SKULLTULA FOREST (RANGER)

The Skulltulas each take two shots to put down, which makes them nice for ramping up your score multiplier—just double-tap the trigger once you've got each of the grounded Skulltulas in your crosshairs. Be careful with the ones that are hanging from webs—your first shot will drop them

to the ground, so hold the second shot until they land.

**Scoring Tip:** When you've finished off all of the Skulltulas, roam around and shoot the skulls and vases to mop up the extra points from this area. The cave with several webbed vases hides a valuable coin.

## LEVEL 5

### STAGE 5-1: OOCOA TARGET PRACTICE

You can play a dangerous game with this stage. Although the Oococas are penalty targets that cost you 100 points and reset your score multiplier, shooting them makes them drop their targets. The falling targets are worth a significant amount of points—ten times their normal value! While it's not in your

best interest to shoot all of the Oococas, tagging a few here and there, especially the ones carrying two targets, can help boost up your score. At the end of each section, any remaining Oococas on-screen will drop their targets. If you can shoot them quickly, these targets are worth extra points.

### STAGE 5-2: GERUDO MOLDORM (DEFENDER)

When this stage begins, the sand-traveling Moldorms will be circling you. Follow their trails of rising dust and shoot them when they jump out of the sand. Watch the radar for the location of remaining Moldorms if you don't see any. Use charged shots on the piles of skulls on the ground to take them all out and earn extra points. Also keep an eye out for the scarecrow and coin-containing jar in the background.

When all of the first group of Moldorms are defeated, you'll be circled by a group of Leever that will begin spinning around you rapidly. Keep your crosshair stationary and shoot each Leever as it rotates into your sights. Next, another group of Moldorms will appear, followed by a second group of Leever. You'll earn

bonus points if you shoot all of the Leever before time runs out.

### STAGE 5-3: THE SHOOTOUT

This is another Bulblin shooting stage, but this time they're much better hidden and their aim has improved. At the start of the stage, use the zoom function to quickly eliminate all of the Bulblins on the balconies and rooftops of the buildings. Head into the building to the left and shoot the lone Bulblin there.

Back outside, look down the alleyways to find some violence-averse Bulblins who decided to sleep out the battle rather than join the fight. Shoot them.

The second open building has three Bulblins—you can shoot one of them through the second-story window before going inside to clear out the remaining two. Finally, at the far end of the street and to the left is a siege tower with three archers waiting for you. Their aim is good, so shoot them as you continue moving to avoid their arrows.

## LEVEL 6

### STAGE 6-1: ORDON TARGET PRACTICE 2

This stage moves continuously from left to right, so you'll need to quickly hit your targets before they disappear. In addition to the targets, this area is rich with secondary point-scoring opportunities.

**Scoring Tip:** Just like in Stage 1-1, you can shoot the doors of the huts to release balloons that are worth 100 points each. This whole stage is also rich with secondary targets like vases, barrels and pumpkins, all of which will boost up your final score significantly.

### STAGE 6-2: BRIDGE OF ELDIN (DEFENDER)

**Scoring Tip:** You can rack up huge score multipliers on this stage. Each of the boar mounts that the attackers ride can take six shots before dropping, so target them rather than their fragile riders. With good accuracy, it's not hard to hit the platinum medal score target on this stage alone.

### STAGE 6-3: SNOWPEAK RUINS (RANGER)

**Scoring Tip:** The Chilfos can be downed with either a single charged shot or five shots. Obviously, you'll want them to take five shots because each additional shot adds to your multiplier. An unarmed Chilfos is defenseless and will be destroyed when you shoot it, so whenever one of them tosses its ice spear at you, wait for it to grab another one before you shoot it.

The Chilfos will block your first four shots, letting you build up a nice scoring multiplier.

The ice walls in the castle courtyard block off your route to more enemies. Use a charged shot to quickly break through the ice.

## LEVEL 7

### STAGE 7-1: UNDERGROUND TARGET PRACTICE

The first scarecrow in this stage can be hard to spot. Zoom in on the doorway and you'll just be able to make out its form in the darkness. Drop it with eight body shots followed by one head shot. The second scarecrow is at the far end of the tunnel during the second section of the stage. If you fail to activate the alternate third area, you'll miss some huge scoring opportunities.

find some coins hidden in some of them for extra points.

If you didn't hit the scarecrows, you'll be ambushed by a mob of enemies in the third area. They take multiple hits to defeat, but are extremely low-scoring, so it's not ideal to take this route. If you got both scarecrows, you'll be taken to the alternate third area. Here you'll be presented with lots of easy targets. As always, take out the red targets before the gold ones to maximize your score. Watch for the additional targets to slide in on the left side of the screen and quickly head back the way they came.

### STAGE 7-2: CITY IN THE SKY (DEFENDER)

The Aerialfos are quick-flying enemies with shields that can block most of your shots. There are several methods for taking them out. The first is tricky: You can aim for their heads or wings (while airborne), but you'll need pinpoint accuracy and the targets won't stay still while you line up your shots. A better way to deal with them is to shoot

them once and hold the trigger to build up a charge shot. Wait for the Aerialfos to stop moving and blast them for a one-hit-anywhere kill shot. As long as you hit an enemy with the throwaway first shot that's necessary to charge the second one, you'll keep your multiplier alive as well. You need only defeat the first two waves of enemies to earn the bonus points for this stage.

### STAGE 7-3: TEMPLE OF TIME (RANGER)

The Lizalfos guarding the temple will come to you as you move through the halls and rooms, so you won't have to hunt for them as you do in some of the other ranger stages. Just don't let them get too close or they'll attack and wipe out your score multiplier. Normal Lizalfos take a couple of shots to defeat, while the shielded ones (with the skull helmets) can take four or five. The second-to-last shot on each Lizalfos will knock it flat, so be sure to adjust your aim so you don't waste a shot on the empty air where your target was just standing.

You'll find other threats in the temple besides the roaming Lizalfos. These statues shoot lasers that trace out their patterns on the floor. Either avoid them or shoot out the laser eyes to shut down the statues.

green ones that give you the rapid shot ability, though; using this power-up can easily cause you to fire extra shots and clear your score multiplier.

## LEVEL 8

### STAGE 8-1: HORSEBACK TARGET PRACTICE

Each section of this stage has Link riding in a different direction—first left to right, then right to left and finally into the screen. Although the targets are all stationary, they can go by quickly depending on their distance relative to Link. Because of this, the targets that are closer should take priority. Targets that are farther off in the background take a lot longer to move across the screen; they can be left alone while you shoot the nearby targets.

### STAGE 8-2: SNOWPEAK RUINS (DEFENDER)

The attacking Wolves have a basic pattern—they'll run in a circle around you and then stop before charging straight in for the attack. They're easier to hit when they stop moving, but because of their numbers, you can't wait for them all to stand still. Aim carefully and lead them a little bit for easier hits.

### STAGE 8-3: DARKNUT BATTLE

This is a very basic boss battle. When Darknut is in his humanoid form, you'll want to keep moving to the side and shoot him after he attacks. Take a few seconds to shoot the statues in the wall alcoves for some bonus points.

About halfway through the fight, Darknut will begin transforming into a cloud of Fairies. Try to hit the white ones, since they're worth 100 points each. Keeping your score multiplier going through this fight is pretty tough, so focus instead on defeating Darknut quickly to increase your completion bonus.

## FINAL LEVEL

### STAGE F-1: RANCH TARGET PRACTICE

This is a standard moving-target stage, except instead of boring targets, you get to shoot at Bokoblins riding on goats! Watch for the red Bokoblins—they're worth more points, so you'll want to shoot the regular ones before popping them to max out your score.

### STAGE F-2: SACRED GROVE (DEFENDER)

The puppets move fairly slowly and are big enough to make them easy targets. If you're looking to hit a high score, avoid picking up the rapid-fire power-up and simply stick with regular shots—each puppet takes two to defeat, so they build the score multiplier well.

### STAGE F-3: FOSSIL STALLORD BATTLE

There are three stages to this final battle against the massive Stallord. In the first stage, he'll shoot flaming projectiles toward Link. Shoot as many as you can, starting with the ones that are heading in your direction.

Next, the Stallord will begin pounding the ground with his hands, revealing glowing spots on his palms. Shooting one will make him raise that hand in the air. Continue shooting the glowing spot each time he stops moving his hand to destroy the entire arm. Now repeat the first two stages until both arms are history.

With no arms for support, the Stallord will collapse to the

ground, giving you a nice view of the weak spot on the top of his head. Shoot it as many times as you can before the beast gets back up and regrows his arms. Now the process starts over from the beginning. To fully defeat the boss, you'll need to bring him down a total of three times within the time limit. Defeating the fossil Stallord is the final challenge of your crossbow skills. Your training is complete!

# ASSASSIN'S CREED

Strategy Guide  
by Anatole Brown

**A**ssassin's Creed can be a little confusing when you first jump into its chaotic world. The elaborate story, wide-open cities and constant time-travel between the past and the future can make anyone's head spin. Our handy guide will show you how the overall mission structure is set up in the game. Assassin's Creed is designed so that you can get to the end without having to complete every goal, but there are plenty of extra missions for perfectionists to pursue. Casual players should be warned, though, that it will be very difficult to complete the game without having a full Synchronization Bar. The more objectives you complete, the stronger Al-tair will be in battle.

## XBOX 360 ACHIEVEMENTS

Unfortunately, nothing gets unlocked in the game when you complete Additional Memories goals...and PS3 players will just have to be content with being perfectionists. However, Xbox 360 players will gain Achievement points for completing various objectives. You can work on Achievements involving flags and Templars after you've finished the game (see "Replaying Memory Blocks"), but it's important to note that some Achievements require you to perform them the first time through. For example, the only way to get the Conversationalist Achievement is to talk to Lucy as you play through the story—you cannot go back into a Memory Block save and try to redo it. Similarly, you will miss out on valuable Achievement points if you jump to the main assassination (Memory 8) without completing all the Investigations, View Points and Save Citizen missions for that particular District. If you miss out on any of these Achievements your first time through, you'll need to start a New Game file.

## WALKTHROUGH

Since Memory Block 1 is basically a tutorial, we'll begin with Memory Block 2. Note that all the missions in the game are depicted as "memory" strands in the DNA bar. You must complete a particular task to fill out each strand, thus allowing the subject to "remember" each episode.

### MEMORY BLOCK 2

### MASYAF

#### • 20 Masyaf Flags

The tutorial continues, but now you'll have the opportunity to roam around. After Al Muallim returns your Sword and Hidden Blade, head for Damascus. Exit the gate, pick a horse and ride through Kingdom.

**Tip:** A flock of pigeons on a ledge means there's a haystack below. You can do a Leap of Faith off these points.

### KINGDOM

- 12 View Points
- 30 Templars
- 100/100 King Richard Flags

As you ride to Damascus, climb as many towers as you can to "synchronize" the View Points along the way. This will open up the map and reveal more surrounding details.

**Tip:** Half of all the Templars in the game can be found in Kingdom. You won't be strong enough to take them on at this point, so hold off until later (or your second time through the game).

## DAMASCUS—POOR DISTRICT

- Target: Tamir
- 9 Towers
- 12 Save Citizen Missions
- 3 Templars
- 33/100 Saracens Flags

Just outside of Damascus, you will be introduced to a Civilian Save mission. After talking to the victim, you will be shown a group of scholars passing by. Join them by pressing the Blend button and you will be able to pass through the city gates without being noticed.

The first thing to do when you enter any District is to find a View Point location. You'll find one already marked on your map with an eagle symbol. Find the tower, climb to the top (where the eagle perches) and synchronize it. Now all the towers in the District will be revealed on the map. The next order of business is to climb all the View Point towers in order to reveal all the Investigation and Save Citizen missions.

**Tip:** Save Citizen missions are optional, but completing them will give you the aid of scholars and vigilantes to keep the guards at bay. Scholars will help you fool the gate guards, while vigilantes can hold guards back as you run past them. The more citizens you save, the easier time you will have with the guards.

## MEMORY BLOCK 3

### MASYAF

When you return to Masyaf, Al Mualim will give you back your Short Blade and you will regain the Counter Attack ability. You can exit the Tutorial mode at any time by pressing the START button, but mastering the Counter Attack ability will go a long way in this game. At this point, you can get a horse and head to either Acre or Jerusalem.

## ACRE—POOR DISTRICT

- Target: Garnier de Naplouse
- 11 Towers
- 12 Save Citizen Missions
- 4 Templars
- 33/100 Hospitalier Flags

**Tip:** There are archers on the rooftops here, so be careful when you scale the towers. Some of the View Points from here on out will be located within enemy strongholds. Use your Hidden Blade to take out the archers quietly.

### Investigations

**Memory 1: Informer (NE)**—Pay attention to your GPS as you make your way around the short course—it will help you make sure you haven't missed a flag.

**Memory 2: Interrogation (South)**—It's a very crowded part of town, so you must escape after killing him.

**Memory 3: Pickpocket (Central)**—This mission takes place inside a guarded tunnel. Get up to the roof and find a hole where you can drop in. Make sure you pickpocket the old man before he makes it past the guards at the exit or your cover will be blown.

### Investigations

**Memory 1: Pickpocket (North)**—Pickpocket only when the subject is moving.

**Memory 2: Eavesdrop (SE)**—Take a seat and listen to the conversation.

**Memory 3: Interrogation (West)**—Make sure you wait until he goes down the dark alley.

**Memory 4: Eavesdrop (Central)**—View the attached map in the Memory Log menu to see the ideal entry point for the assassination.

**Memory 5: Eavesdrop (NW)**—The attached map shows the best escape route.

**Memory 6: Eavesdrop (NE)**—The attached map shows the layout of the courtyard.

**Memory 7**—Return to the Assassins' Bureau (the entrance is on the roof) after you've completed two or more Investigations. Speak to the Bureau Leader and pick up the feather on the counter. After a night's rest, the Assassination Target will appear on the map.

**Memory 8**—Enter the courtyard and you'll see Tamir arguing with his dealer. After the argument is ended, equip your Hidden Blade and follow Tamir to the table (make sure you approach him with the Blend button held down). Assassinate him while he's distracted. If he notices you, you will be in for a swordfight. Either way, once he is dead, the entire area will be on City Alert. You will need to shake off the guards and make it back to the Bureau Leader to end the mission. The Bureau will not let you in if guards are on your tail.

Back at the lab, talk to Lucy and get some rest in your room.

continued

**Memory 4: Pickpocket (East)**—The attachment is a map of Garnier's fortress.

**Memory 5: Eavesdrop (NW)**—The map attachment shows the best route to Garnier.

**Memory 6: Informer (SW)**—Use Eagle Vision to pick out the Informer's Target from the crowd. Remember, only the Hidden Blade should be used for Informer missions. If the guards are alerted in any way, you'll have to start all over.

**Memory 7**—You must complete two Investigations or more to receive your orders from the Assassins' Bureau.

**Memory 8**—If you haven't already done so, save the Citizen just outside the entrance of Garnier's fort. Blend in with the scholars to get past the guards. Garnier will come through the double doors and head back inside. Go around to the back and you'll see Garnier making his rounds in the guarded "operating" area. There are many deranged patients here who will shove you around, so stay up on the rafters before coming down for the kill. Make sure you are praying (Blend) so you can get near him without causing alarm.

At Masyaf, you will receive Throwing Knives and regain the Tackle ability. You can now target thugs and pickpocket them for extra throwing knives.

## JERUSALEM—RICH DISTRICT

- Target: Talal
- 9 View Points
- 12 Save Citizen Missions
- 4 Templars
- 33/100 Jerusalem Crosses

**Tip:** Instead of pulling out the Sword to save a citizen, use the Hidden Blade to kill the first soldier or two standing guard.

### Investigations

**Memory 1: Informer (NW)**—Use your Set Marker functions to track down both targets. They will be roaming around in the covered streets. Go back to the Informer and he will give you two more targets.

**Memory 2: Interrogation (East)**—Follow the Despot into the dark alley and give him a good beatdown. Thugs will join the melee if they witness the fight, so be careful!

**Memory 3: Pickpocket (SW)**—Check the attachment for Talal's guard positions.

**Memory 4: Pickpocket (SE)**—You can use scholars to get into the mosque area, or you can just hop the wall on either side of the guards.

**Memory 5: Informer (Central)**—You'll have three minutes to collect 20 Masyaf Flags. The best way to start is to climb the ladder right next to the shop stand.

**Memory 6: Eavesdrop (NW)**—Save the Citizen to the left of the church and you will be able to use the scholars to get inside. The conversation will take place at the altar.

**Memory 7**—You'll need to complete two or more Investigations to get the order from the Bureau.

**Memory 8**—You'll need the aid of the scholars outside Talal's fortress to get in. Enter the building and confront Talal. Once you step into the light on the floor, a swordfight will break out. These guards are a little stronger than normal, so make sure you use the Counter Attack as much as you can. Climb the ladder and go after Talal as he runs through the streets. If you saved the citizen in this area, a group of Vigilantes will hold him back, giving you the perfect opportunity to use the Hidden Blade.

Back at the Lab, continue your conversation with Lucy. When you return to your room, you will notice that the closet is open. Check the closet for an access code. The next morning, Vidic will go on a long rant. After he's finished, he will walk over to the window and stare outside. Walk up and steal his pen before entering the Animus.

## MEMORY BLOCK 4

### MASYAF

You will regain the Catch Ledge and Grab Break abilities. With the Grab Ledge ability, you will be able to grab nearby ledges while in midair, giving you a further reach when jumping from building to building. When you exit Masyaf this time, you will be able to select your destination from a menu without having to gallop through Kingdom.

## DAMASCUS—RICH DISTRICT

- Target: Abu'l Nuquod
- 10 View Points
- 10 Save Citizen Missions
- 4 Templars
- 33/100 Saracens Flags

You can enter the Rich District by travelling west from the Poor District. The map will no longer show the first View Point location, so you'll have to find it on your own (which should be easy by now).

**Tip:** Guards here are more sensitive to how you treat pedestrians. Keep your cool around beggars and deranged citizens by using the Gentle Push button.

### Investigations

**Memory 1: Interrogation (NW)**—The Despot will head straight to the line of guards, so you will have to catch up to him quick. Otherwise, you'll have to scale the wall to get to the other side.

**Memory 2: Eavesdrop (East)**—Nothing special about this mission.  
**Memory 3: Informer (South)**—You'll have three minutes to eliminate two targets. Keep moving and don't wait for the guards to notice your misdeeds.  
**Memory 4: Pickpocket (SW)**—This guy is a little more paranoid than the usual marks, so keep your distance.  
**Memory 5: Eavesdrop (North)**—View the attachment for more info on the Merchant King.  
**Memory 6: Informer (NW)**—You'll have three minutes to collect 20 Masyaf flags. Guards are a little nervous here, so be quick, and be sure to view the attachment.  
**Memory 7**—You must complete at least three Investigations to proceed to the Bureau. The Bureau is still in the Poor District.  
**Memory 8**—Enter the private party through the left side of the fortress. Abu'l will appear on the veranda. The guests will be panic stricken, making it difficult to move around quickly. Climb up to the second floor. When you get close to Abu'l, he will flee. Use the Sprint button and chase after him with the Hidden Blade equipped.

When you get close to him, press the Attack button to do a lunging attack and finish him off. Return to the Bureau and fast forward the memory to Masyaf. You will receive the Balance and Dodge ability plus Sword Expertise (increased damage).

## ACRE—RICH DISTRICT

- Target: William de Montferrat
- 11 View Points
- 9 Save Citizen Missions
- 3 Templars
- 34/34 Templar Flags

**Tip:** Templars will sometimes jump into swordfights if you get into scuffles close by.

### Investigations

**Memory 1: Informer (South)**—You'll have three minutes to collect 20 Masyaf flags. Start running through the buildings just behind the Informer and follow the flags up to the roofs.  
**Memory 2: Pickpocket (NW)**—Another easy mission.  
**Memory 3: Interrogation (Central)**—This Despot doesn't really walk to a secluded area, so you'll just have to beat him down in broad daylight.  
**Memory 4: Informer (North)**—The Informer will give you two targets to assassinate. You'll get an escape route map when you're done.  
**Memory 5: Pickpocket (West)**—The attached map details the position of William's archers.

**Memory 6: Pickpocket (East)**—This event occurs in a guarded enclosure, so you'll have to climb in from the top. Drop down carefully and don't agitate the guards.  
**Memory 7**—You must complete at least three Investigations to proceed to the Bureau.

**Memory 8**—William will return to the fortress after getting chastised by Richard. Climb the walls and up to the roof. Use your Hidden Blade to quietly take out any archers. Richard will be rallying his troops in the corner enclosure. After he dismisses them, he'll be alone at the table. Drop down and take him out. You may end up having a swordfight against him, but the other guards will be slow to arrive. It's a bit of a run back to the Bureau, but there are plenty of hiding spots along the way.

Back at Masyaf, Al Mualim will grant you Extra Throwing Knives.

## JERUSALEM—POOR DISTRICT

- Target: Majd Addin
- 6 View Points
- 8 Save Citizen Missions
- 3 Templars
- 34/100 Jerusalem Crosses

**Tip:** Check the Memory Log after an Investigation to get extra info about the main target.

### Investigations

**Memory 1: Interrogation (SW)**—Follow the Despot into the dark alley and beat the info out of him.  
**Memory 2: Informer (West)**—You'll be given two targets that are roaming the streets. Upon completion, the informer will tell you about the scholars near the upcoming execution, a very useful tip.  
**Memory 3: Pickpocket (Central)**—This guy will walk through some guards standing sentry. You'll need to climb over a few walls while keeping your eye on him. View the attachment for a map.  
**Memory 4: Pickpocket (East)**—This map attachment shows the positions of Addin's guards.

**Memory 5: Informer (SW)**—You'll get three targets this time. One of them is guarding the rooftops, while the other two are roaming the streets.  
**Memory 6: Eavesdrop (South)**—Nothing special here.  
**Memory 7**—You'll need to complete three Investigations to proceed to get the assassination order from the Bureau.

*continued*

**Memory 8—Majd Addin** will give a speech before he starts the execution. When you're free to move, find the group of scholars standing to the right and blend in. They will walk all the way up to the left of the stage. Run up to Addin with the Hidden Blade and try to kill him before he slays the first "sinner". You may instigate a sword fight, but try to ignore the soldiers and keep your target on Addin. When he falls to the ground, go in for the kill.

You will return to the lab when you have killed all three targets in all three Districts. When you return to your room, instead of going to bed, exit the door again. Now that Lucy and Vidic are gone, you can examine their e-mails on their computers (but only if you bothered to get the access code in the closet and steal Vidic's pen earlier).

## MEMORY BLOCK 5

### MASYAF

Back at Masyaf, Al Mualim will give you the Defense Break ability. You can select your destination when you leave the city.

### ACRE—MIDDLE DISTRICT

- Target: Sibrand
- 9 View Points
- 7 Save Citizen Missions
- 3 Templars
- 33/33 Teutonic Flags

**Tip:** The View Point in the southeast requires hopping over the water across several boats and piers. It'll be instant death if you get wet, so plan your course carefully. Be careful of the shoving maniacs!

### Investigations

**Memory 1: Pickpocket (NW)**—Keep your distance when approaching the bench. This conversation is between guards, so they're already suspicious of you.

**Memory 2: Pickpocket (South)**—A beggar lady will hound you here. Just keep your cool and focus on the task.

### DAMASCUS—MIDDLE DISTRICT

- Target: Jubair Al Hakim
- 7 View Points
- 8 Save Citizen Missions
- 3 Templars
- 34/100 Saracens Flags

**Tip:** Be wary if you see any groups of patrolling guards—they are looking for you! Keep your hands clasped.

### Investigations

**Memory 1: Pickpocket (East)**—Nothing special here.

**Memory 2: Eavesdrop (East)**—Be careful not to get too close to the patrolling guards when you're looking for the bench. Wait until they leave the enclosure before making any high-profile moves.

**Memory 3: Interrogation (Central)**—This guy can put up a fight. Use the Grab Break to create some space.

**Memory 4: Informer (North)**—You'll have five minutes in which to kill five targets. One of them is patrolling the rooftops. This is one of the harder missions in the game, due to the number of guards patrolling the streets.

**Memory 3: Interrogation (East)**—Nothing special here.

**Memory 4: Informer (West)**—Four minutes, five targets. Plan this out carefully using the Set Marker function in the map screen. Save the ones closer to the Informer for later. The map shows an alternative route (used by the guards) at the docks.

**Memory 5: Informer (East)**—Three minutes, three targets. Be quick and discreet. This map attachment shows the best route to take when hopping over the boats at the docks.

**Memory 6: Pickpocket (Central)**—The old man carries a map of the Northern Docks.

**Memory 7**—You will need to complete three investigations to proceed to get the assassination order at the Bureau.

**Memory 8**—Sibrand will retreat back to the large ship after the scene at the docks. The best route is the middle pier which leads to a series of small boats you can jump on. Approach

Sibrand's ship from the North by passing through the View Point tower you secured earlier. Sibrand will run toward the guard tower as soon as he spots you. Guards will come at you from all directions, but your focus should be on chasing down Sibrand. Once he reaches the guard tower, he will be protected by his most powerful knights. If you're fast enough, it's possible to kill him even before he gets off the ship by blocking off the exit ramp.

Back at Masyaf, you will receive Short Blade Expertise (more damage).

Any agitation by a civilian will almost certainly blow your cover. You'll have plenty of time, though, so don't go rushing into any kill within the vicinity of guards.

**Memory 5: Informer (SW)**—You'll have three minutes to eliminate three targets. This is an extremely crowded area; use Eagle Vision as much as possible. One of them is patrolling the rooftops close to the Informer.

**Memory 6: Pickpocket (East)**—Follow the assistant through the crowd using the Gentle Push button before going in for the steal.

**Memory 7**—You must complete at least three investigations to get the assassination orders from the Bureau.

**Memory 8**—The only way to get into the targeted area is to climb the wall and drop in. The scholars will allow you to circle the structure and find a good climbing spot without arousing the suspicion of the guards. Walk down the stairs and witness the book-burning below. After the cutscene, six assassination targets will appear on the GPS. Use Eagle Vision to correctly identify Jubair—he will be the easternmost target, preaching inside a small enclosed area. Climb up and attack him from above. He will run out into the streets and his guards will try to push you back. Keep pursuing Jubair and he will get jammed up by some Vigilantes (if you completed the Save Citizen mission). Use the Hidden Blade while he struggles to break free.

Back at the Lab, talk to Lucky and hit the sack.

## MEMORY BLOCK 6

### MASYAF

At Masyaf, you'll receive Extra Throwing Knives and Sword Expertise (Increased damage).

## JERUSALEM—MIDDLE DISTRICT

- Target: Robert De Sable
- 7 View Points
- 6 Save Citizen Missions
- 3 Templars
- 33/100 Jerusalem Crosses

**Tip:** Now is a good time to go back and finish off some missions if you haven't already done so. You should have a full Synchronization Bar (two bars across) by this point.

### Investigations

**Memory 1: Eavesdrop (NW)**—Nothing special here.

**Memory 2: Pickpocket (North)**—There are way too many demented freaks inside the enclosure to make a clean pick, plus the guards are at the door. Climb out of the enclosure to track the soldier and pickpocket him outside.

**Memory 3: Interrogation (South)**—The Despot immediately goes into a dark alley, so this should be easy.

**Memory 4: Informer (Central)**—

You'll get five minutes to kill five targets. They're all Templars, so you should have no problems picking them out of a crowd even without Eagle Vision. Be very careful not to bump into guards or the whole mission will go down the drain.

**Memory 5: Informer (SE)**—You'll have three minutes to take out just two targets. One of them is high up on the rooftops.

**Memory 6: Pickpocket (SE)**—The map acquired here will show how Robert's guards are set up.

**Memory 7**—You need to complete at least three Investigations to get the assassination orders from the Bureau.

**Memory 8**—The front gate is guarded, so you must find an alternative way to get inside the cemetery. You will be immediately identified by the enemies. Keep your target on Robert and try to

take him out with the Hidden Blade using counter attacks. If it's too hard, use the Sword or Short Blade to take out as many enemies as you can. When you engage Robert, wait until he falls to the ground, then take out your Hidden Blade and finish him off. A twist in the story will reveal that it is a trap.

Head outside of Jerusalem and grab a horse. Select Kingdom when you exit the area. On the road to Acre in Kingdom, you will see a new area called Arsuf on the map. You'll agitate a bunch of guards along the way, but just ignore them and keep riding—they can't catch your horse.

### ARSUF

Note that you will not be able to continue until you clear each area of guards. When you finally reach Richard, he will challenge you to a battle against several Templars. Keep switching targets and use Counter Attacks as much as possible to spread your attacks evenly. When all the knights are dead, a head-to-head battle against Robert will ensue. Immediately switch to your Hidden Blade and get ready to Counter Attack or Grab Break against all his attacks. When Robert is thrown to the ground, finish him off with the blade.

Back at the lab, keep talking to Lucy and Xbox 360 owners will unlock the Conversationalist Achievement.

## MEMORY BLOCK 7

### MASYAF

As you make your way up to Al Mualim, you will be forced to fight against the Brotherhood. When the second wave of enemies appears, fend them off as long as you can until Malek comes to your aid. Al Mualim will be in the back courtyard. He will summon all the spirits of those you've assassinated, and you'll need to fight them all at once! Surprisingly, they can all be eliminated easily with the Counter Attack.

Al Mualim will split into many Als and try to confuse you. You can use Eagle Vision to identify the real one, but it's better to fight them all straight up with Counter Attacks; you'll eventually take down the real one. After that, he'll fight you one-on-one...but he will warp around the garden as you fight him. Find the golden glow of the relic to locate him. The fight will not end until you take him out with the Hidden Blade. The key is to knock him down first, then go in with the blade.

Back at the lab, use Eagle Vision to check out all the strange writings and drawings around the room. If you use Eagle Vision above your bed, the game credits will roll. Afterwards, you'll be free to move about

the lab. You can access both computers and check out additional e-mails if you followed the lab events properly. Note that Lucy's Outbox contains the access code for the conference door. Knowing this code allows you to enter the conference room.

## REPLAYING MEMORY BLOCKS

At this point, you can re-enter the Animus and replay any Memory Block by using the left stick to navigate

the menus. This will allow you to continue your search for Flags and Templars. Note that all Investigations will be reset and you will start each Memory Block from the beginning, with Al Mualim in Masyaf. Your abilities will also be limited to whatever you earned during each Memory Block. Memory Block 4 is probably the best place to start for flag and Templar hunters, since you'll have the Grab Ledge ability.

In order to avoid having to watch the final scene and credits roll each time you load up the finished game save, go into a Memory Block and do something to activate the auto-save function, such as collecting a flag or killing a Templar.

### DONKEY KONG COUNTRY (Virtual Console)

#### Music Test

#### Two-Player Competition

#### Practice Bonus Rounds

At any time during the intro sequence with Cranky and Donkey Kong, press **Down, Y, Down, Down, Y**. You'll be transported to a secret cave where you can practice playing any of the bonus rounds by collecting the corresponding animal statues. Note: This code may not work when you first power-up the game; you may have to enter the game's first level, then press the **Home** button and select "Reset" to return to the intro sequence before it will register.

### DONKEY KONG COUNTRY 2 DIDDY'S KONG QUEST (Virtual Console)

#### Music Test

At the "Select a Game" menu, choose an empty save slot as if you were about to start a new game; then, when the player select menu comes up, highlight "Two Player Contest" and press **Down** very quickly five times. The Music Test will appear. Press **Right** or any of the action buttons to advance to the next tune, or press **Left** to go back through the list of names.

#### Cheat Mode

Access the Music Test as described above, then press **Down** very quickly five more times. A top-secret Cheat Mode option will appear. With this option highlighted, you can enter the following cheat codes (you'll hear a tone and a monkey noise each time you enter a code correctly):

Start with 50 lives—**Y, A, SELECT, A, Down, Left, A, Down**

Start every stage with both Diddy and Dixie, remove all "DK" barrels from the game—**B, A, Right, Right, A, Left, A, X**

#### 75 Kremlins

Enter the game's first stage, "Pirate Panic"—it doesn't matter if you do this in a new game or a saved game. Walk to the right until you see the entrance to K. Rool's cabin. Watch out for the two bananas on the ground right in front of the door; you must avoid these two bananas throughout the entire sequence or else the trick will not work. Walk inside the cabin, but do NOT touch the red 1-Up balloon; just walk out immediately. Back outside, you must carefully jump over the two bananas without touching them. Now go to the right and grab the first bunch of bananas you see on top of a set of

barrels. Next, get back into the cabin without touching the two bananas in front of the door. This time, grab the red balloon and exit. Finally, go back to the barrels again and grab that same bunch of bananas, returning to the cabin without touching the two bananas in front of the door. When you enter, you'll find a spinning coin that gives you incredible 75 Kremlins. Now you can access the Lost World through Klubba's Kiosks on any part of the island.

### DONKEY KONG COUNTRY 3 DIXIE KONG'S DOUBLE TROUBLE! (Virtual Console)

#### Cheat Passwords

At the "Select Game" menu, highlight the saved game you want to play in and press **L, R, L, R, L, R, L, R, L, R**. The words "Enter Code" will appear at the top of the screen and the name of your saved game will turn into a password entry menu. Enter one of the following code words; you'll hear Dixie giggle if a code has been entered properly. When you start from that saved game slot, your game will be affected as follows:

**LIVES**—Enter this password to start the game with 50 lives.

**ASAVE**—With this code in place, your game will automatically be saved after you complete each level without having to go visit Wrinkly Kong.

**COLOR**—This code makes Dixie's clothes purple and Kiddy's pajamas green; it also changes the colors of the flags that mark each completed level accordingly.

**HAROR**—This code is supposed to make the game more difficult, but we haven't figured out how it works yet.

**TUFTST**—Entering this password makes the game harder by removing all of the continue barrels from each level. If you play the full game with this code in place, you can get up to a 105% completion rating.

**MERRY**—This code changes the music in all of the game's bonus stages to a Christmas motif; it also changes the stars and bananas in the bonus stages to ornaments and presents.

**MUSIC**—Enter this code to access the secret "Dixie Kong's Music Test" screen, which allows you to sample all of the background tunes from the game.

**WATER**—Enter this code, then start the game. Swim in the water to the left of Funky's Rentals without any vehicles and go up to the waterfall on the left side of the map. When you touch it, you'll discover a secret puzzle cave that's just like the caves where you find banana birds. If you repeat the sequence correctly, you'll be rewarded with up to 85 bonus coins, enough to pay Boomer Bear to blast away all of the obstacles in the lost world of Krematoria.

## KIRBY: CANVAS CURSE

### Secret Characters

• **Waddle Dee Ball**—Finish the game once. When you start a game from the same file, Waddle Dee will be revealed as a new playable character. He only has four hit points, and cannot obtain powers. He's also much lighter than Kirby.

• **Dedede Ball**—After you unlock the Waddle Dee Ball, you can buy the Dedede Ball in the Medal Swap for 20 medals. He has seven hit points, and swings a hammer when you tap him. He also cannot obtain powers. He's much larger and heavier than Kirby.

• **Meta Knight Ball**—After you unlock the Dedede Ball, you can buy him in the Medal Swap for 25 medals. He only has three hit points. He's much lighter than Kirby, but he's slightly stronger.

• **Waddle Doo Ball**—After you've beaten the game at least once, insert *Kirby and the Amazing Mirror* or *Kirby: Nightmare in Dreamland* into the Game Boy Advance cartridge slot of your DS. When you start a game of *Kirby: Canvas Curse*, Waddle Doo Ball will be available. An alternative way to unlock him is to beat the game with all four of the other characters. He has five hit points and the Beam ability. He can't obtain any other powers.

### Jump Game Medal

The Jump Game unlocks in the Game Select menu after you beat the game with every character. If you manage to launch Kirby 1,500 meters, you'll land right on top of a medal, which is sitting on the course. The best way to launch Kirby this far is to preserve enough ink so you can draw a second ramp when Kirby is already in the air.

## NEW SUPER MARIO BROS.

### Play as Luigi

At the "Select a File" menu in Mario Game (single player) mode, highlight your save file, then hold L + R and press A; you will hear Luigi say his name to confirm that you have entered the code correctly. *Enable Secret Challenge Mode*

(Note: This code only works on a save file where you've previously completed the game.) While on the map screen, press START to pause the game and press L, R, L, R, X, X, Y, Y at the pause menu. A message will appear to confirm the code. In Secret Challenge Mode, the screen scrolling works as it did in the original *Super Mario Bros.*; i.e. you can't go back in the direction from which you came.

### Fireworks

To trigger the fireworks that appear when you touch the flagpole at the end of a stage, make sure that the last two digits of the timer are the same number (i.e. 99, 88, etc.) at the exact instant when Mario or Luigi touches the flagpole. If your timing is right, you will be rewarded with explosions equal to that number. Since each explosion is worth 4,000 points, you can get a total of 36,000 extra points at the end of each stage instead of the maximum of 8,000 points earned by just hitting the top of the flagpole. Activating fireworks also triggers a Toad House to appear at each stage's starting point, with a reward inside that is also determined by the last two digits of the timer. If the numbers are 11, 22 or 33, you'll find a random power-up inside the Toad House that appears. If they're 44, 55 or 66, you'll get a 1-Up, and if they're 77, 88 or 99, the Toad House will contain a Mega Mushroom.

## THE NEW YORK TIMES CROSSWORDS

### Black & White Mode

At the main menu, press Up, Down, Down, B, Y, Y to change the gameplay graphics to black and white, making the puzzles look the way they appear in the newspaper. Enter the code again to disable it.

## NINTENDOGS

### Extra Treats

When you're training your dog to learn tricks, a yellow light bulb will appear over its head. You can grab the light bulb and feed it to your dog like a treat! You might also notice that sometimes a yellow bone will appear if you've been petting your dog a lot. You can feed this to it, too.

### Constant Walks

Usually you can only walk your dog every half-hour. However, there is a trick that you can use to get around this limitation. Walk your dog to the park, then switch one of its accessories. The game will automatically save. Turn off the game and you can take your dog for a walk again immediately! This is a great way to increase your chances of finding rare presents.

### Mystery Presents

When walking your dog, sometimes you'll see a present just lying on the sidewalk. Your dog will only pick it up if you notice the present and jerk your pooch in the direction of the present. These presents are usually better than the ones that are already marked by Question Marks on the map.

## PING PALS

When the clock reaches midnight (00:00), you'll hear a chime; you

must tap the "Ping Pals/THQ" button (to load the game) at that exact second. When the game starts, check the item shop and you'll find the Shantae Background available for sale.

#### PRINCESS NATASHA

**C R U S H L U B K**—Infinite lives  
**O L E G S G I Z M O**—All gadgets available

#### PUYO POP FEVER

##### Unlock All Gallery Items

##### Choose "Options"

from the main menu, then select "Gallery." At the Gallery menu, highlight "View Cut scenes," hold the X button and press Up, Down, Left, Right. You'll hear a sound to confirm; now all of the cutscenes and the voice samples for all characters will be unlocked.

**Endless Puyo POP Character Select/Pattern Change Select** "Endless Puyo POP" from the main menu, then highlight the mode you wish to play and press Up, Down, X, A. You'll hear a sound to confirm, and the character-select screen will appear, allowing you to play as any character in this mode. Also, if you hold the X button down while selecting your character, you will be able to play with that character's puyo pattern instead of the "classic" pattern (Ari's pattern). Note that your high scores will not be saved when playing with the character-select active.

##### Classic Pattern

If you hold the X button down while selecting your character in Single or Everybody mode, you will play with the "classic" puyo pattern (Ari's pattern) instead of the pattern of the character you chose.

##### Everybody Puyo POP Cheat

To force the computer player(s) to lose during a game of Everybody Puyo POP, hold L + R and press SELECT.

##### Computer Control

In any game mode with a handicap option before the match, if you hold the SELECT button down while choosing your handicap, the computer will control your character.

##### Bonus Pictures

If you play Puyo POP Fever with a copy of the Game Boy Advance version of Puyo POP Fever plugged into the GBA cartridge slot of your Nintendo DS, you'll find extra pictures of the characters in the Gallery under "View Cut scenes."

##### Microphone Tricks

- If you blow into the DS microphone at the main menu screens, bubbles will appear and the menu options will bounce.
- If you blow into the DS microphone during the instructional demo, the characters on the bottom screen will turn around to look at you.
- If you blow into the DS microphone when the map is displayed on the bottom screen during a cutscene, the character will react. Blow gently and the character will fight the wind; blow hard and he or she will be blown away.
- If you blow into the DS microphone during a match, your character will speak.
- If you blow into the DS microphone at the title screen, a mini-game will begin. A score will be displayed and a giant puyo will fall from the top screen. The object is to keep the puyo from falling

off the bottom screen by using the stylus to bounce it back up. For best results, keep the stylus in contact with the touch screen and push the puyo up from below. You'll score a point for each bounce. After ten bounces, another puyo will appear; after 20 more bounces, a third will appear, with more appearing every ten bounces after that (up to a maximum of six). The last puyo to appear will be a nuisance puyo. If any one puyo falls off the screen or if you hit a puyo in its center, all of the puyo on the screen will pop. You can also push all of the puyo back up at once by blowing into the DS microphone, but you lose points for doing this.

##### Secret Mini-Game

If you complete the WakuWaku Course or HaraHara Course in Single Puyo POP mode at Normal difficulty or higher, you can play a mini-game while the credits are displayed. Look closely at the pictures of each character and find the difference between the picture on the top screen and the one on the bottom screen. If you tap the part of the picture that's different on the touch screen, it will advance to the next character. (Note: You must tap it twice.) Nine different characters will be displayed in succession, or 16 if you cleared the course without continuing. If you identify the flaw on all of the characters before the credits end, a special picture will appear.

#### RESIDENT EVIL: DEADLY SILENCE

##### Special Key

If you clear the game and get the "best" ending for either character, you will earn a special key. To get the best ending when playing as Jill, you must rescue both Chris and Barry. To get the best ending when playing as Chris, you must rescue both Jill and Rebecca. If you load your game from a save where you unlocked the key, it will appear in your inventory at the start of the game. The key unlocks the door behind the dressing room (the room with the huge mirror on the wall) on the first floor of the mansion. You have to get the Armor Key first so you can unlock the big brown double doors to the east of the central room. Inside this room are brand-new outfits for Chris and Jill; one each in Classic mode and two each in Rebirth mode.

##### Master of Knifing

Beat the game once in either Classic or Rebirth Mode to unlock a five-stage mini-game called "Master of Knifing."

##### Rocket Launcher

If you beat the game in under three hours, you'll unlock a Rocket Launcher with unlimited ammo that you can use from the start.

Note that items that you unlock are restricted to the file you used to save your clear data—if you got it by playing Jill/Classic, you can only use the item during a replay of Jill/Classic, etc.

##### Cheat Codes

Enter the following cheat codes at any time during the game (but not while paused). Each time you enter a code successfully, a message will appear in the upper left corner of the screen to confirm. Note: Some of the codes cannot be deactivated once you've turned them on; you must reset the PlayStation 2 in order to restore the game to normal. Do not save your game after entering codes; if you do, the codes may be permanently activated in your save file and your save file may become corrupt. Activating cheats will lower your in-game ranking. Also, some codes may cause unpredictable results which may cause the game to "crash," especially if you have several codes in effect at once. Codes that modify the appearance or behavior of vehicles or pedestrians will usually not affect those that are already in the immediate vicinity; you'll see the effects when new vehicles or pedestrians appear. The codes that cause vehicles to appear may not work if you're too far from a street or other area where vehicles are allowed to drive.

**Select Cheat Codes**  
Enter the following cheat codes at any time during the game (but not while paused). Each time you enter a code successfully, a message will appear in the upper left corner of the screen to confirm. Note: Most of the codes cannot be deactivated once you've turned them on; you must reset the PlayStation 2 in order to restore the game to normal. **Do not save your game after entering codes;** if you do, the codes may be permanently activated in your save file. To keep your saved game from being affected, remove your memory card before entering any cheat codes and leave it out until after you turn off the PS2. Also, some codes may cause unpredictable results which may cause the game to "crash," especially if you have several codes in effect. **Do not** modify the appearance or behavior of vehicles or pedestrians will usually not affect those that are already in the immediate vicinity; you'll see the effects when new vehicles or pedestrians appear. The codes that cause vehicles to appear may not work if you're too far from a street or other area where vehicles are allowed to drive.

#### STEEL BATTALION

##### Unlock Free Mission Mode

Note: This code requires the player to set the Tuner Dial on the Steel Battalion controller to specific positions. Unfortunately, the settings on the Tuner Dial are not labeled. For the purposes of explaining the code, we will refer to the individual hash marks around the Tuner Dial as numbers from 0 through 12, starting from the extreme left position. In other words, 0 is straight left, 4 is straight up, 8 is straight right and 12 is straight down.

At the title screen, move the Tuner Dial to the following positions, one at a time, and pause for a second or two at each number position: 1, 9, 7, 0, 9, 0, 6. In other words, set the Tuner Dial in the 1 position, wait a moment, turn the dial clockwise for eight "clicks" to the 9 position, wait a moment, turn the dial counter-clockwise for two "clicks" to the 7 position, etc. When you've entered the code correctly, you'll hear a sound effect to confirm. Now you can select "Free Mission" mode from the main menu, which allows you to play any mission at any difficulty setting with all of the VTs unlocked.

2. In Reel 5, Act I, when you're fighting ninjas on the slippery ice on the cliffs (after you've launched up to the cliffs using the remote-controlled platform), finish the scene with at least five hearts.

4. Finish any scene with only one heart remaining.

When you place the three objects (teardrop, sword and mirror) into the matching scrolls, a door opens on the right side of the room on the upper right. However, if you hit the switch in this room instead of going through the door, you'll end up on the bottom level, and when you go through the open space on the right, you'll enter a bonus area filled with ninjas.
11. Pass Chamber 2 with at least an "A" rating.
12. Earn a "V" time rank in five consecutive scenes.
13. Have only one heart left from beginning to end in any scene.
14. Pass Reel 4, Act II.
15. Earn a "Rainbow V" ranking (get a "V" for V-Points, Defense and Time) during the UFO fight in Reel 4, Act I.
16. Finish the last scene in Reel 2, Act I without using any VFX powers.
17. Pass Chamber 8.
18. Pass Chamber 9 and buy the Sliding power-up.
19. Pass the miniboss fight against Big John in Reel 3, Act II with an "A" rank or higher.
20. Pass the kitchen scene in Reel 1, Act III, with a "Rainbow V" ranking.

24. Get Joe thrown out of the women's restroom 10 times in a row in Reel 3, Act I.
25. After finishing the scene where you start the gears turning in Reel 3, Act II, don't use any VFX until the next "Just Go For It!" scene starts.
26. Pass Chamber 17 and finish the Story Mode.
27. Pass Chamber 18 and buy the Redhot Kick power-up.
28. Pass the challenging button scene in Reel 7, Act I where Silvia has to use her Replay VFX, with at least 30 seconds to spare.
29. Collect every V-Reel in Reel 5, Act I.
30. Earn a "Rainbow V" in five consecutive scenes. They can span across Acts, so if you get a "Rainbow V" in each of the first four scenes in Reel 1, Act I, you'll still get the chamber to unlock if your first grade in Reel I, Act I is also a "Rainbow V."
31. Perform the Ukemi 10 times in a row in Reel 7, Act I. When one of the weaker enemies hits you, if you use VFX Zoom In right before your body hits the ground, you'll recover without taking damage.
32. Pass Chamber 23, and also attain an overall rank of "Rainbow V" for any of the scenes during the following acts: Reel 1, Act III; Reel 2, Act II; Reel 3, Act II; Reel 4, Act II; Reel 5, Act III
33. Pass Chamber 24.
34. Pass Reel 1, Act IV without picking up a single V-Reel.
35. Pass Story Mode on Adults difficulty.
36. Pass Chamber 27 and Story Mode.
37. This is a secret chamber that unlocks if you complete Chamber 6, finish the Story Mode and earn an overall rank of "D"oh" in three consecutive scenes. It's harder to earn a "D'oh" than you think, since the game is relatively forgiving when ranking you on defense. Buy up a bunch of "Take 2" power-ups, then play through the first three scenes in Reel 1, Act I. Let the enemies kill you at least one time during each scene and you'll get a "D'oh" for defense. If you want to minimize V-Points, don't break anything, and kill enemies with one VFX Zoom In punch. Take as long as you want to pass; getting a "D'oh" time ranking is the easiest part.

#### POKÉMON (Red, Blue and Yellow versions)

##### Celadon "Rocket Game Corner" Tips

• Slot Machines—Watching the reels carefully can increase your odds of getting a match. For example, watch for a particular image or number to scroll by, and hit the A button as soon as it appears for each reel. The chances of you lining up another image is fairly high, as long as you don't get dizzy staring at the tiny Game Boy screen. Although it's claimed that the slot machines inside this casino have differ-

ent odds, watching the reels works on all of them.

• Secret Coins—After speaking to the other people in the casino to get coins, you can discover secret coins lying around the floor of the Game Corner by moving around and pressing A.

##### Evolution Tip

Some Pokémon can only be evolved through the use of elemental Evolution Stones. It is a bad decision to evolve your Pokémon right away, since there may be some attacks it can only learn in its Basic Evolution stage that it would never learn if you evolved it right away.

##### Hidden Machine Tips

• Hidden Machines, or HMs, are permanent. If you teach them to one of your Pokémon, they will never forget it; therefore, don't teach weak HM skills like "Cut" to a Pokémon you intend to use as part of your main party.

• HM 01 (Hidden Machine 01): Cut—When you use Cut in a grassy area, you will clear away four squares of grass. Using this method is one way to avoid random encounters with wild Pokémon.

##### Master Ball Tip

The Master Ball is an ultimate Pokéball that can capture any Pokémon instantly. It can only be used once, so don't waste it on a common Pokémon. It should be saved so it can be used to capture Mewtwo or one of the three Legendary Birds.

##### Fight Mewtwo

In order to fight Mewtwo, you need to gain access to the Unknown Dungeon. You must defeat the Elite Four before the man blocking the entrance will allow you through. Also, you must NOT reset your game after you've beaten it. Wait for the credits to finish, then go back to the Start screen by pressing A. Fly to Cerulean city, then use a Pokémon that knows Surf to get to the Unknown Dungeon, which lies to the northwest of Cerulean city. Right before you fight Mewtwo, save your game. That way if you lose or if Mewtwo faints, you can quickly reset the game. You should also do this before fighting other "one-time-only" Pokémon like Zapdos, Articuno and Moltres. When you fight Mewtwo, either use the Master Ball immediately or use sleep attacks and a lot of Ultra Balls.

##### Quick Experience Gain

If you have a group of strong Pokémon with one weak Pokémon, you can level up your weak Pokémon quickly by letting it share experience with a stronger one. Put the weak Pokémon at the top of the list so it always goes out into battle first. Switch it immediately with a strong Pokémon and the two will split the experience points in half. This is an excellent way to level up Pokémon like Magikarp, which are useless before they evolve.

##### Rare Candy Tip

Gaining levels by using Rare Candy on your Pokémon is not as effective as leveling up your Pokémon normally. Pokémon who legitimately gain experience improve their statistics more dramatically than Pokémon who only used Rare Candy, so it's not a good idea to use a lot of Rare Candy on one Pokémon at once, since it will be weaker than other Pokémon that are the same level.

##### Increase Stats

Use one of your Pokémon in battle until all of its PP for one move is depleted. Take it to a Poké Center to store it in Bill's PC, then immediately take it out again. Heal your Pokémon at the Poké Center, then check its statistics—you'll find that some of its attributes have slightly increased. This will occur even if you are using a Pokémon that is already at Level 100.

#### POKÉMON: SPECIAL PIKACHU EDITION

##### (Yellow version)

##### Level Up Pikachu

When playing Pokémon Yellow, your starting Pikachu will obey you no matter what level he is or how many badges your character has earned. Knowing this, one quick way to blaze through the game is to trade your starting Pikachu into another Pokémon game that you've already finished and

quickly level Pikachu up by having him lead off during battles in the Elite Four tournament. When you trade him back into Pokémon Yellow, your character will have no trouble controlling him, even if his levels are maxed out and you haven't earned a single badge. This will only work with your Pokémon Yellow starting Pikachu, i.e. the one that follows you around everywhere.

##### Bucket-Head Pikachu

Pikachu trails behind your main character during the game, and you can turn around and "speak" to Pikachu to get a graphical representation of what's on his mind. When you take Pikachu fishing, maneuver your character so you're standing beside Pikachu. After fishing, turn to speak to Pikachu and he will respond with a bubble over his head with a picture of a fish in it. Zoom in on Pikachu and you'll see that he's put your fishing bucket on his head!

## Dead Space

Publisher: Electronic Arts  
In Stores: 3rd Quarter 2008

*Dead Space* is survival horror game reminiscent of *Event Horizon* or *Alien* mixed with *Resident Evil*. Built on the Unreal Engine 3, this third-person shooter follows Isaac Clarke, a space engineer who is called in to repair a large mining spacecraft. The enemies are Necromorphs, an alien infestation that devastates the ship's crew and leaves Clarke and his small team fighting for their lives. Clarke will have to use his engineering experience to devise weaponry and defenses against the relentless waves of aliens hunting him down. These devices include a torch gun and a variety of drilling and cutting weapons that he adapts for combat. Yes, there's lots of gore as you hack off limbs and pummel attacking monsters...but some of the Necromorphs are immune to certain attacks, even headshots! Clarke also has gravity boots and an oxygen supply to allow him to space-walk outside the ship. You aren't safe outside, though: You're prone to attack anywhere, and gravity provides an extra obstacle for you as well as a hindrance to your opponents. Drawing on a variety of classic horror sources, *Dead Space* is the sort of game you might be afraid to play alone at night.

## Boom Blox

Publisher: Electronic Arts  
In Stores: May

*Boom Blox* is the first of three upcoming video games being created in part by blockbuster movie director/producer Steven Spielberg. Players grab, shoot and throw Blox with the Wii remote to clear a path and progress through over 300 stages. Your success in clearing the Blox depends on your ability to aim and put some "oomph" behind your throws using the motion control. The levels run the gauntlet of classic themes, from the Middle Ages to the wild west to Halloween. Throughout the game you'll unlock special characters, props and new Blox as well. *Boom Blox* includes co-op and versus play, plus the ability to share custom levels with your friends over WiiConnect24.

## SNK Arcade Classics Vol. 1

Publisher: SNK Playmore  
In Stores: 2nd Quarter 2008

Neo•Geo freaks won't be disappointed by this classic coin-op compilation from SNK. The set includes fighting games (*Art of Fighting*, *Fatal Fury*, *World Heroes*, *King of the Monsters*, *Samurai Shodown* and *The King of Fighters '94*), side-scrolling adventures (*Magician Lord*, *Metal Slug*, *Shock Troopers*, *Burning Fight*, *Sengoku* and *Top Hunter*), sports sims (*Baseball Stars 2*, *Super Sidekicks 3* and *Neo Turf Masters*) and one space shooter (*Last Resort*). Most of these titles are the first in their respective series, with the curious exceptions of the sports games. No word on a suggested retail price, but consider this: If you bought all of these games when they first came out for the Neo•Geo in the 1990s, you would have paid over \$3,000 for the lot!

## Silent Hill: Origins

Publisher: Konami  
In Stores: 2008

Like *Grand Theft Auto: Liberty City Stories*, *Silent Hill: Origins* was a PSP exclusive...until somebody noticed that there's still a whole lot of PS2s in use. More action oriented than the "Oh, God...run!" style of previous games in the series, *Origins* follows the story of Travis Grady, a truck driver who stumbles upon Silent Hill and awakens the origins to the hallucinations he's experienced throughout his life. Armed with whatever weapons he can find (like a meat cleaver or pool cue), Grady must fight his way out of Silent Hill, building barricades to keep from being overwhelmed. Depending on the actions he takes, the ending of the game can change.

## Tiberium

Publisher: Electronic Arts  
In Stores: September

*Tiberium* is an upcoming first-person shooter hybrid with a sci-fantasy slant. As an extension of the *Command & Conquer* universe, the game world is one destroyed by brutal wars fought over Tiberium, a crystal that can replace dependence on fossil fuels and save humanity...or destroy it. As Forward Battle Commander Ricardo Vega, you discover that a tower left from a previous war contains the threat of a new Scion attack. Players then delve into intense solo and squad-based missions with combat that escalates from infantry to air strikes and epic full-scale warfare. You'll also be able to compete in online multiplayer battles.

# Iron Man

Publisher: Sega

In Stores: 2nd Quarter 2008

Sega scored the exclusive rights to make a new Iron Man game based on this summer's blockbuster motion picture featuring the Marvel Comics superhero. As you might expect, ol' shell-head can hover, fly and dispense enemies with his repulsor rays. In the game, you can transition smoothly from ground to air combat, allowing you to do things like throw enemy missiles back at their sources or at your foes at on the ground. As you progress, the inventing abilities of Iron Man's alter ego Tony Stark will come into play and he'll gain the ability to fix and upgrade his Iron suit. Fans can expect plenty of bonus Iron Man material to unlock as well as appearances by Marvel villains not seen in the movie.

# NBA Ballers: Chosen One

Publisher: Midway

In Stores: 2nd Quarter 2008

Bring your fantasy basketball team to life with *Chosen One*, where you choose from over 65 NBA players for one-on-one and two-on-two showdowns. Featured athletes include Dwight Howard of the Orlando Magic and Al Horford of the Atlanta Hawks. You'll unlock spectacular super moves for each player in single-player contests and you can take your game online as well to compete against other ballers. A new "action movie style" camera catches all the highlights of the game. You can also create and customize your ideal player using the "Create-a-Baller" mode. It's designed for pick-up-and-play gaming, so anyone can hop into a match and pull off cool moves.

# Wild Earth: African Safari

Publisher: Majesco  
Available Now

Wii

*African Safari* takes gamers into the African wilderness, where they use the Wii Remote to guide their safari vehicle or snap pictures of their exotic surroundings. The game includes 11 different missions with over 30 animals and co-op mode for up to three players, with each player assigned driving or picture-taking responsibilities. There's also a mode that lets you play from the perspective of the animals. As you make your way through the savannas, you'll be asked to take specific photos of the animals around you to progress. You may have to hunt down a charging Wildebeest or a lion catching its prey in this African adventure.

# Naruto: Ultimate Ninja 3

Publisher: Namco Bandai  
Available Now

Wii

*Naruto: Ultimate Ninja 3* includes over 55 stages in 20 arenas and over 40 characters from the show, the most of any *Naruto* game to date. A new customization feature allows players to create Ultimate Jutsu moves for their characters, and the ability to summon minions to aid in battle makes the brawling much more interesting. You'll also be able to upgrade your fighters and hear the original Japanese voice actors. The game explores new story arcs from the TV series as well as those from *Naruto's* past. There's no online play, but the single-player and local multiplayer modes are robust.

# Puchi Puchi Virus

Publisher: NIS America  
Available Now

DS

**Puchi Puchi  
VIRUS**

*Puchi Puchi Virus* is an American port of a Japanese puzzle game with *Tetris* and *Dr. Mario* overtones; players eliminate viruses by linking them together before they fill up the screen. Oh, the horrors, this virus seems to turn people into...kinda precious monsters? To destroy the viruses, you must create triangles out of incoming virii. You also have to work quickly; if you leave them on the screen for too long, they'll turn to stone and mess up your game. Various levels have different criteria for the win, but you'll still have to zap every virus to progress. The game supports two players for competitive play over WiFi. While the game can be a challenge to the most skill puzzle solvers, it's accessible to casual gamers as well.

# Mystery Dungeon: Shiren the Wanderer

Publisher: Sega  
Available Now

DS

*Shiren the Wanderer* comes from the developer of the *Pokémon Mystery Dungeon* series and stars a Samurai warrior named Shiren. With your weasel companion, Koppa, you'll have to battle through dungeons on your way to the Lair of the Golden Condor as part of a larger quest to unlock the secret of El Dorado, lost city of gold. The game's roots reach all the way back to the Super NES in Japan, but this DS upgrade adds new levels, restructured difficulty, new graphics and sound plus a handy tutorial. With the additions to the game, you'll be well equipped to solve puzzles and battle your way through the game's dungeons.

# Wild ARMs XF

Publisher: XSEED Games  
Available Now

The first portable game in the long-running *Wild ARMs* series follows the Blanchette knights, led by Clarissa, and their quest to reclaim their homeland, the Elsius Kingdom. The game takes place on Filgaia like its predecessors; it's a cel-shaded strategy RPG featuring over 60 chapters and 30 classes of characters with weapons that range from pistols to magic. If you've played *Wild Arms 5*, you'll be able to transfer your save data to XF via USB as well. Exclusive to this U.S. version is a music room that allows you to listen to over 20 themes from throughout the game once you've beaten it.

**DO YOU KNOW THE SECRET OF THE MYSTERY CODES?**

Scattered throughout our *Tips* pages are cheat codes that we call "Mystery Codes"—these are codes that are known to work, but we're not sure what effect they have in the game in question. Please note that these codes may not have any effect at all; there's a very strong possibility that they were left in the games inadvertently or that their effects were intentionally disabled before the games were released. However, we invite you to prove otherwise. Test out these codes for yourself; you might be the first person (other than the game's programmer) to learn what a Mystery Code does!
